**RE: School District of Philadelphia
Documentation Regarding Removal of PCB Transformers
Strawberry Mansion High School**

Dear Scott:

I am pleased to report that during the month of August 2014, two PCB transformers were removed from the School District of Philadelphia's Strawberry Mansion High School. Enclosed for your information and files are the following two letters that were prepared for the School District of Philadelphia to document information associated with the removal of these transformers:

- PCB Transformer Removal – Serial No. 3475168 dated September 2, 2014
- PCB Transformer Removal – Serial No. 3475167 dated September 3, 2014

As you may recall, I advised you of the small fluid release that occurred during the removal of the transformer with the serial number 3475168. The letter of September 2, 2014 discusses that event, the subsequent cleaning, epoxy encapsulation and wipe sampling. Documentation that is to be developed, as a consequence of this release, is a "Final Report" as well as a deed notification. We will also provide you with additional disposal/destruction documentation upon receipt.

As always, please contact me if you have any questions.

Regards,
KEATING ENVIRONMENTAL MANAGEMENT, INC.
